

Databases for biotechnology and bioscience

RCSB Protein Data Bank

Pubchem

Chemical safety

- [International Chemical Safety Card \(ICSC\)](#)

Spectral database

- [Spectral Database for Organic Compounds - SDBS](#)

This database contains various spectra such as Mass, ^{13}C NMR, ^1H NMR, IR or ESR of organic compounds. This database is maintained by National Institute of Advanced Industrial Science and Technology (AIST) of Japan.

Ligand database

- [Ligand.Info](#) - a compilation of various publicly available databases of small molecules
 - [Java Applet](#)

Failure Knowledge Database

[JST Failure Knowledge Database](#)

*(from the site) - The Japan Science and Technology Agency (JST) has studied **accidents** and **failures** in the fields of science and technology. The lessons learned have been used to create the Failure Knowledge Database. This database can be accessed free of charge.*

Merck

- [Merck manual for healthcare professionals](#)
- [Merck manual - Home edition](#)

Direct link creation

You can make a direct link to various databases in this Wiki.

Check this page. → [Show database entries](#)
